Library Research Guides

Search subjects guides for specific topics or subjects. These tailored resources help students get started with their research by pointing them to relevant resources. Speak with your liaison librarian if you are interested in having a library guide created for your class. https://epcc.libguides.com/

Research Library Classes

We provide research instruction to your classes. Workshops are tailored to your specific group of students or assignment (or we can give a basic general workshop covering different components of the library).

To schedule library instruction, please stop by at the library reference desk one week in advance to schedule a class and fill out an instruction request form. (Or call us at: 831-2442).

If you have a library related assignment planned for your students, please let us know in advance so that we can prepare the materials.
